

Dragonette

I Get Around Single

And they certainly do get around. Seems like you can't open a magazine or click on a music website without seeing praise for Dragonette. *I Get Around* is an instantly catchy alt-pop tune, with shades of No Doubt and just ask anyone who's been to one of their live shows to tell you just how great their mega diva lead singer Martina is in the flesh.

Released 23 April

Brett Anderson

Brett Anderson LP

A very personal album from the former Suede Front man: highlights include *Scorpio Rising* (named after a gay Nazi biker flick of the same name), the single *Love is Dead* and the heart wrenching *Song For My Father*. Tickets for Brett's UK tour are going like gold dust but if you get the chance to see him live don't pass it up, he's still got all the moves.

The Arctic Monkeys

Favourite Worst Nightmare LP

Crikey is it that time of year already. It barely seems like yesterday that the monkeys released their debut LP and now here's the follow up. This LP doesn't bring too many new ideas to the table and could be described as a classier but 'safe' follow-up, but since indie kids across the country aren't anywhere near bored of the Arctic's sound yet there's no need to monkey around with something that's not broken.

Does it offend you, yeah?

Battle Royale Single

Two camera shy young men (what have they got to hide?) with synths from Reading who had the MySpace du jour at the end of last year. A stomping Daft Punk / Justice influenced gem that's gonna be tightening sphincters on all the coolest dance floors.

Bondo Do Role

Solta O Frago-Domino Single

This rocking lo-fi balle funk is the best party tune of the year so far, from Brazils latest and cutest export. Apparently they have quite a filthy tongue on them... hmmm.
